

Hiss Denies Giving Secrets To Soviets

Takes Stand In Climax Of Trial

New York, June 23—(AP)—Point by point, Alger Hiss today denied the charges that he sold out his state department office to a Soviet spy ring.

"I've been waiting a long time for this," he said as he went to the witness stand in a climax to his federal perjury trial.

Hiss took the stand shortly after a surprise defense witness quoted Whitaker Chambers as once saying that former Assistant Secretary of State Francis B. Sayre was a leader of a prewar communist underground in Washington.

The witness, Malcolm Cowley, a Sherman, Conn., writer, said Sayre was so described in 1940 by Chambers. Hiss' chief accuser and a self-styled courier for the Russian spy ring.

Defense Attorney Paul Stryker immediately told the court he did not believe Chambers' purported description of Sayre. But he introduced it, Stryker said, in a further effort to prove Chambers a liar.

Sayre himself, when informed of the testimony, declared: "I give an absolute and unqualified denial."

Sayre now is a U.S. delegate to the United Nations trusteeship council meeting at Lake Success.

Hiss, tall and slender, was gravely serious as he raised his right hand to take the witness' oath before the jury of 10 men and two women upon whose verdict his honor rests.

For 17 days he has been sitting in Federal Judge Samuel H. Kaufman's courtroom listening to the government brand him a tool of Russian spies during his brilliant prewar career in Washington.

Chambers has testified that, as a former spy ring courier, he got secrets from Hiss for the ring.

Hiss denied Chambers' accusations and denied he even had seen him since Jan. 1, 1937. As a result, a New York grand jury indicted Hiss on two counts of perjury.

Chicago Doctor Asked To Account For Clinic Funds

Chicago, June 23—(AP)—A state committee of doctors today asked that Dr. Herman Bundesen, Chicago health officer, be required to explain how he spent \$50,000 of federal mental health funds.

The committee, which advises state health authorities on the expenditure of federal funds, also asked that Dr. Bundesen submit a budget showing how \$50,000 requested for 1949 would be spent.

The group asked an accounting of a 1947 allocation of \$50,000 made to Chicago to set up a city mental hygiene clinic. Dr. Paul Hietko, a committee member, said the group understood that three automobiles and office furniture had been bought with the 1947 appropriation.

The action was taken by resolution at a meeting of the committee. Dr. Hietko said that since a city mental hygiene clinic has not yet been formed, the committee wanted to know how the equipment was being used.

Methodist Leaders Adopt Pay Raise For Rock River

Waukegan, Ill., June 23—(AP)—Methodist ministers of the Rock river conference were voted a salary raise today.

The conference approved a new pay scale for 1949-50 giving a top annual salary of \$2,000 cash, plus a house or home allowance and \$200 for each dependent child up to three children to pastors under regular appointment will receive \$1,800 cash yearly, plus a house or home allowance.

Supply pastors, meaning student pastors or local preachers not on regular appointment, will receive \$1,400 annually, plus house or home allowance if they are single. Married pastors will receive \$1,800 plus a house or home allowance and \$200 for each dependent child up to three children.

The conference said further wage adjustments would be made from time to time dependent upon cost of living conditions.

In other action by the conference, President Truman was called upon to keep federal aid funds from parochial schools.

Dudley, Eng., June 23—(AP)—This Midlands city was shaken by two earth tremors tonight. No casualties were reported immediately.

House Passes School Aid But Cuts Tax Bill

By Charles Whalen

Springfield, Ill., June 23—(AP)—Republican senators today jolted Governor Stevenson's spending plans for major state purposes today by removing the heart of a key sales tax bill.

The bill calls for extending the two per cent sales levy to special order businesses. It is one of three tax broadening bills which Stevenson is depending on for \$50,000,000 in the next two years.

May Cause Revision
Democratic leaders said the Senate action, which came as the House was passing Stevenson's \$112,000,000

school program, probably would cause cuts in school aid. One new figure mentioned is \$93,000,000.

They said it also would lead to drastic revision or elimination of the democratic governor's proposals for aiding cities, airports and tuberculosis sanitarium.

However, GOP senators, who outnumber democrats, indicated they may not trim the school grants.

Senate Action Next
Final action on schools now is to be taken by the Senate. Unless there are Senate amendments, the \$112,000,000 would not go back to the democratic House for possible reduction.

By a vote of 26 to 19, republicans adopted an amendment to the special order sales tax measure. Democrats said the change exempts all types of goods sought to be included under the tax, and that it would cut more than a third of the \$50,000,000 extra revenue.

Two other bills in the series would extend the sales tax to construction contractors and repair services. All three were approved by the House two weeks ago and are awaiting Senate passage votes.

Child Killed Just After Given Hope For Future Cure

Mt. Pleasant, Ia., June 23—(AP)—Mary Catherine Tulley, 10, died today—less than 24 hours after her doctors told her she would someday walk without crutches.

Mary Catherine suffered from a bone disease for years. Several months ago surgeons fashioned a plastic hip to replace one which had deteriorated.

The little girl looked forward to the day when surgeons could tell her she was on the way to recovery. Yesterday, while she was in Pittsburgh for an examination, the surgeons told her just that.

On the way home, the car in which the girl was riding hit a concrete abutment. She died without regaining consciousness.

Senator Butler Charges Hawaii Under Red Grip

June 23—(AP)—Senator Butler (R-Neb.) charged today that "international revolutionary communism at present has a firm grip on the economic, political and social life of the territory of Hawaii."

He urged congress to defer serious consideration of statehood for Hawaii "until the people of the islands demonstrate by positive steps a determination to put down the menace of lawless communism."

Butler's views were expressed in an official report to the senate committee on interior and insular affairs on his visit to Hawaii last November as a special one-man subcommittee to study statehood legislation. At the time of his visit he was chairman of the full committee.

In the report, Butler expressed high regard for the loyalty and achievements of "an overwhelming majority" of Hawaii's people. But, he said:

"Since V-J Day, in September, 1945, the Hawaiian islands have become one of the central operations bases and a strategic clearing house for the communist campaign against the United States of America."

Explosives Expert Of Texas Oil Wells Slain At Motel

Amarillo, Tex., June 23—(AP)—W. A. "Tex" Thornton, 37, daring explosives expert of the world's oil fields, was found slain today in a tourist court.

Police were seeking a young man and young woman who went to the motel with Thornton last night. Officers said the victim's diamond ring was missing, they found no money in his personal effects.

Thornton's skull had been fractured in two places and a shirt and towel were knotted tightly about his throat.

Justice of the Peace C. W. Carter estimated Thornton, president of the U. S. Nitroglycerin company, had been killed about midnight.

Thornton won fame as an oil field trouble shooter. Clad in an asbestos suit, he would walk up to a wildly blazing well and snuff out the fire with explosives.

Audubon Edition Given To U. Of I.

Champaign, Ill., June 23—(AP)—A set of the noted first edition of John James Audubon's "The Birds of America" has been given to the University of Illinois library.

The university foundation purchased the four large books, each 33 by 26 inches, for \$10,500. They came from the Brooks school, North Andover, Mass. The university said the last time a set of the books was offered on the market—in 1942—they brought \$15,600.

Swimming Champion Dies

St. Louis, June 23—(AP)—Mrs. Ruth Wolbrink Geselschap, 36, former women's backstroke swimmer, died today at her home in St. Louis. She had complained of a severe headache after swimming yesterday.

Her husband, Robert A. Geselschap Jr., and three children survive.

How They Voted

Washington, June 23—(AP)—Here is the way the following midwestern senators voted today when the Senate defeated, 77 to 8, the plan of Senator Morse (R-Ore.) to have congress deal with national emergency strikes on a case-by-case basis.

Illinois—Lucas (D) and Douglas (D) against the amendment.

Wisconsin—Wiley (R) against, and McCarthy (R) for.

Missouri—Donnell (D) and Kem R. against.

Seize Brutal Slayer Of Morrison Woman

By Dwight McCormack

Morrison, Ia., June 23—(AP)—A pretty young mother was found slain and fiendishly mutilated early today, and a search was started for a man who authorities said confessed the crime to his mother.

The body of Mrs. Irma Jean Stahlhut, 22, was found inside a big walk-in refrigerator in the tavern she and her husband operated here. The killer had cut off her breasts, slit her throat from ear to ear, stabbed

her twice in the heart, and cut her open "down the middle."

About 12 hours after discovery of the body the state highway patrol radio at nearby Cedar Falls broadcast a pickup alarm for Edward J. "Buddy" Beckwith, 27, of Morrison. The patrol said a first degree murder warrant was being issued.

Later Beckwith was arrested by a posse of four men. Grundy county Sheriff John A. Meyer said Beckwith was found lying on his stomach in a muddy corn field a little more than an hour after the state highway patrol had broadcast a pickup alarm for him.

Sheriff Meyer said "presumably" a first degree murder charge would be filed against Beckwith in the morning. Meyer said Beckwith had asked, after he was taken to jail, that no one be allowed to see him. Meyer said he did not plan to talk to Beckwith until tomorrow morning.

Sheriff John A. Meyer said Beckwith had told his widowed mother, Mrs. E. M. Beckwith, that he committed the slaying. The sheriff said the young man, a wartime soldier, left her home at 1 a.m., after telling her:

"I'm taking off and you'll never see me again."

Patrons of the Stahlhut tavern said Beckwith was there when they left the place at 11:40 o'clock last night, shortly before it was closed.

33 Die As Dutch Airliner Plunges Into Adriatic Sea

Bari, Italy, June 23—(AP)—A big Dutch airliner carrying 53 persons plunged out of sunny skies into the Adriatic sea today in view of horrified beach bathers off this southern port. There were no known survivors.

The Royal Dutch airlines (KLM) said their plane carried a Dutch crew of 11, 17 Dutch passengers and five Egyptians who got aboard at Cairo en route nonstop to Amsterdam.

Witnesses said it seemed to fall straight downward from about 16,000 feet, level off at 1,500 and then fall tail-first into 120 feet of water. It settled less than 1,000 from Bari's sunny beaches.

Bodies of 16 men, five women and three children were recovered quickly. An Italian news agency reported one additional body, that of a boy, also was found.

The four-engine Constellation was enroute from Batavia, Java, to Amsterdam on the last leg of the flight via Mauritius, Aden and Cairo.

A KLM map showed the usual flight from Cairo to Amsterdam would have taken it over eastern Greece, 400 miles east of Bari.

No survivors were found. Clothing had been stripped from most of the bodies, apparently by an explosion. One report said many were burned.

Beach bathers said there was an underwater explosion soon after the plane sank. Rescue workers believed it was from a container of compressed air or oxygen.

Economist Hopeful Of Labor Peace During This Year

Champaign, Ill., June 23—(AP)—A University of Illinois economist said today he believes "neither labor nor management will be inclined to force another wave of prolonged shut-downs" this year.

Prof. V. Lewis Bassie, writing in the current issue of the "Illinois Business Review," said that "generally speaking, the attitude of the unions is moderate." He said extreme demands running up to 25 cents an hour are regarded as more of an attempt to establish a bargaining position than as a real objective.

He said that management is standing firm on a "hold the wage line" policy. But he added:

"When management again becomes convinced of the strength of our economic position, its determination to hold the line on wages may not continue so strong as to prevent the granting of minor increases necessary to effect a compromise" with labor.

Guards At Atomic Plant Report Security Laxness

Washington, June 23—(AP)—Congressional investigators today received a report that guards at the great Hanford, Wash., atomic plant are "appalled by the security laxness which has existed for some time and still exists."

The assertion was laid before the Senate-House atomic "watchdog" committee in the form of a letter written by Merle E. Smith, Jr., president of the Hanford Guards union local No. 21.

An official of the Hanford plant sharply disagreed with Smith. Coincidentally with this development, Chairman McMahon (D-Conn.) disclosed that the FBI has been called to investigate what he termed an "inventory discrepancy" at the Oak Ridge, Tenn., atomic plant.

McMahon previously said the discrepancy might turn out to be a mere bookkeeping error.

Two Romanian Uniate Bishops Tortured By Reds

Vatican City, June 23—(AP)—Two bishops of Romania's outlawed Uniate church were tortured by communist officials in an effort to break their allegiance to Pope Pius XII, a Vatican source said today.

The Uniate church, a Romanian branch of the Romanian Catholic faith, was dissolved by Romania's communist government last December.

There are some 1,500,000 communists in each of the allied Catholic rites, in Romania—the Uniate and the Latin. The pro-Russian Orthodox church, only officially recognized religion in the country, has more than 12,000,000 adherents.

The Vatican source identified the bishops as Msgr. Ion Suciu, Papal representative of the Metropolitan See of Fagaras and Albi Julia, and Suciu's auxiliary, Msgr. Attenie.

2 Firemen Killed In Refinery Blast

Perth Amboy, N. J., June 23—(AP)—Two firemen were killed and six men injured today in an explosion at the sprawling waterfront plant of the California Refinery Co.

The blast sent clouds of smoke towering over lower New York Bay as first one tank, then a second burst into flame.

The two firemen died as the second tank caught fire. Fire Chief Albert Meyers said he was standing with the two men, Lawrence Demach and Howard Adams, when the front of the tank blew up.

He said he turned and ran but that the two others were unable to get away.

SENTENCED FOR NON-SUPPORT

Chicago, June 23—(AP)—A Wisconsin man was sentenced to one year in jail today for non-support after his former wife testified he had given her only \$15 in the last two years to support their four children.

Marlin A. Kasten, 32, of Daney, Wis., was sentenced by Judge Joseph B. Hermes in domestic relations court.

Coplon Admits Idea Of Visiting Russia

Western Powers Again Fail On Berlin Issue

By Thomas A. Reedy

Berlin, June 23—(AP)—The western powers tried again today to find a solution to the tangled Berlin rail strike and failed.

After a three-hour meeting of the U.S., British and French commandants, a spokesman said "no decisions were reached and nothing was agreed upon worthy of an announcement."

The strike of the West Berlin railway workers has bottled up freight shipments in the four-

power city since May 21. It was called to stress union demands for full payment of wages in West marks, job security and union recognition.

The union (UGO) is anti-communist. The rail management for which the strikers work is the Russian-controlled Reichsbahn (state railway).

The rail system offered the workers part payment of their wages in West marks. Russian authorities also said no striker would be punished merely because he had walked off the job. They warned, however, that "saboteurs and criminals" could not expect protection.

This Soviet warning, plus Russian refusal to recognize the union, stiffened the backbone of the strikers. They tossed the compromise offer aside.

After the Big Four foreign ministers' meeting in Paris urged a restoration of normal rail traffic, the strikers offered to move inter-zonal freight through the clogged West Berlin yards.

Earlier today the British ordered the police in their sector to prevent the union from carrying through its plan. British officials said it was "impractical" for the strikers to try to run part of a railroad without approval of the railway management.

Cudahy Meat Firm Fails To Declare Usual Dividend

Chicago, June 23—(AP)—Directors of the Cudahy Packing company today failed to declare the quarterly dividend of 15 cents a share normally declared at this time on the common stock.

E. A. Cudahy, chairman of the meat packing firm, said the results in the company's meat divisions this year "have not been satisfactory."

Cudahy said the principal reason for the unsatisfactory results "has been the continuously declining market for most of our products since last September."

Another factor, Cudahy said, "has been the steadily maintained and extremely active competition for all classes of livestock, a condition which frequently has made it impossible to buy our livestock supplies on a basis permitting us to realize a favorable price for the finished product."

Vote Pay Raises To State Officials And To Women

Springfield, Ill., June 23—(AP)—Higher salaries for various state elected and appointed officials were voted today by the Illinois House.

Bills listing the salaries for paychecks in 1951 and 1952 now go to the Senate. Governor Stevenson wants the pay boosts to attract "highly competent" men.

The House approved a bill strengthening the 1943 "equal pay for women" law. It headed for a questionable fate in the Senate.

Legislation action was completed in the Senate on four bills. Referred to the governor, they would:

1. Protect the guy who takes a nip now and then by requiring a full ounce tavern shot of whiskey, gin or rum. A similar measure was vetoed two years ago.

2. Give each of the 102 state attorneys a state cash grant of \$1,000 a year each for travel expenses.

3. Authorize Cook county to increase its state's attorneys annual salary from \$15,000 to \$17,000 after November, 1952.

4. Tighten state fire prevention laws to prevent disastrous blazes like the recent Effingham hospital fire that took 75 lives. The bill allows the state fire marshal to require installation of fire prevention devices in large assembly places. State inspection of such places would become secondary.

'Little Old Lady' Of Song Fame Dies

Indianapolis, June 23—(AP)—Hoagy Carmichael's "Little Old Lady" died today.

She was Mrs. Laura Emma Carmichael, 96, grandmother of the song writer and inspiration for the hit tune of a decade ago.

Hoagy often came to Indianapolis to visit "Gran" and had telephoned her three days ago from Hollywood. In poor health the last year, she died in Methodist hospital.

She had spent her entire life in Indiana, the last 27 years in Indianapolis. Survivors include a son, two daughters, 15 grandchildren and 12 great-grandchildren.

2 Dead, 2 Hurt In Auto Accident

Fort Wayne, Ind., June 23—(AP)—A Michigan man and his mother were killed and his wife and another woman injured in an automobile accident east of here on highway 24 today.

The dead were identified as Raymond K. Rohrer, 23, of Dearborn, Mich., and his mother, Mrs. Orpha Jackson, 54. Rohrer's wife, Eleanor, 23, suffered a fracture of the arm, and Mrs. Joseph Barglaan of Muskegon, Mich., suffered serious internal injuries.

Rohrer's car collided with another and then struck a tree.

Six Day Defense Nears End

Washington, June 23—(AP)—Judith Coplon conceded today that she inquired repeatedly about visiting Russia in the spring of 1948, a year before the FBI seized her for allegedly stealing government secrets intending to aid Moscow.

But she swore it was just curiosity, not a desire to live with the Soviets.

Pale but composed after the hysteria that marked her last two days on the witness stand, Miss Coplon made the disclosure of the attempted Russian venture as her "two-months-old espionage trial moved toward the end."

Expect Verdict Next Week

The verdict in the case is expected next week.

Miss Coplon was still on the stand when court adjourned until tomorrow. Chief Prosecutor John M. Kelley, Jr., told newsmen, however, he expects to wind up his cross-examination after about two more hours.

Kelley questioned Miss Coplon at length about her acknowledged desire to see what went on "behind the Soviet Iron curtain," as she put it.

But with even more painstaking attention, the federal attorney dwelt on the story of one hour—a minute-by-minute account of what happened in uptown Manhattan on the night of last Feb. 19—and its possible connection with an old Soviet spy trick.

First, Kelley recalled Miss Coplon's denial yesterday that she ever read FBI reports about the "habits and methods employed by Soviet espionage agents."

According to Kelley, one dodge used by Russian spies was this: If they failed to make connections the first time, "to go away and come back in an hour."

Conflict Mounts As Drive Closes For Housing Vote

Washington, June 23—(AP)—Franklin D. Roosevelt, Jr., speaking for the first time as a member of congress, called today for passage of President Truman's big housing bill as a blow to socialism and communism.

Scuffling at opposition shouts that the bill is socialist, the tall, 34-year-old son of the late president, who was sworn in last week, told the House:

"The slums of America are breeding spots of communism, and in passing this legislation we will be striking a blow against socialism and communism and for our free enterprise system and our American democracy."

Only about 50 members were in the chamber when he began to speak, but about twice that number had gathered before he finished. Democrats applauded. So did spectators in the gallery.

Young Roosevelt spoke shortly after a republican, Rep. Javits of New York, predicted substantial republican help for the administration's controversial housing bill—and that it will pass.

Administration forces appeared to be gaining ground. Some are predicting victory by a 30 vote margin in the 433-member House. But Rep. Halleck (R-Ind.) insisted that the issue still is "touch and go."

Hungary Reports Purge In Ranks Of Communists

Prague, Czechoslovakia, June 23—(AP)—Hungary's strong man, Vice-Premier Matyas Rakosi, said tonight 200,000 persons—about 18 per cent of the membership—had been expelled from the Hungarian communist party.

He added the party is still ridden with "spies and provocateurs."

He referred apparently to the recent expulsion and arrest of Laszlo Rajk, former Hungarian foreign minister, and communist leader Tibor Secey on charges of spying and Trotskyism.

Rakosi said a purge of Hungarian communist ranks was found necessary to "strengthen our party." He said it was trimmed to about 1,000,000 members.

General Bradley Argues For New Army Pay System

Washington, June 23—(AP)—General Omar Bradley argued today that nearly two-thirds of the proposed \$302,000,000 in pay increases for the armed services will go back to the federal treasury in income taxes.

The army chief of staff spoke of the present pay system, which dates back to 1908, as a relic of the "Horse Trolley" and "Gas Light" age.

He told the senate armed services committee that the army, navy and air force must have career incentives to attract future leaders.

Senators Petition To Cut Budget

Washington, June 23—(AP)—Senators clamoring for economy claimed today that well over half the Senate membership has signed up in favor of directing President to cut billions of dollars off next year's spending.

Fifty-six of the 96 members have signed such a petition, Senator McClellan (D-Ark.) said; 21 Democrats and 35 Republicans.

FOR WILDLIFE PROTECTION

Wildlife will never be restored to its former state in this country, or anything approaching it, but it can be protected to a far greater extent than is being done today.

The immediate problem is to stop the pollution of streams. Effective legislation—not the kind recently passed by congress—is needed for this purpose.

But there are other ways to encourage and protect wildlife, one of which was stressed recently by Ira N. Gabrielson, president of the Wildlife Management Institute. It is the planting of more trees and shrubbery in our agricultural lands.

He points out an incongruous situation: "In thickly populated sections of Europe, there is still room for shrubbery, trees, hedges and for wild creatures. In relatively thinly populated America, we apparently urge the land owner to attempt to destroy everything that interferes with the maximum dollars and cents production of each unit of land."

"Little attention has been given to the use of water farming, although it is an important part of management in other nations. There is little appreciation of the values of marsh land and yet there are such lands whose net profit from management of the aquatic resources is greater than that secured on adjoining intensively cultivated agricultural land."

These are reasonable suggestions. Progress can't be stopped, but wildlife is a part of our tradition and should receive the benefit of all practical safeguards.

Do You Really Want to Take Off That Ugly Fat?

Recently there have been a number of new reducing preparations on the market, some of them based on the diet and vitamin "plan." It is obvious that vitamins will not reduce the body weight, so one must depend on diet to reduce. But it is also obvious that one cannot go on a strenuous diet over a protracted period, and any weight lost will be restored if the former eating habits are gone back to.

So what to do? Well, here is a tip to you "overweight gals" who want to fight "the Battle of the Bulges" in a different way. Ask any well stocked Illinois druggist for four ounces of Renell. Mix with 12 ounces of grapefruit juice and take two tablespoons twice a day.

This preparation contains nothing harmful and the makers agree to refund your money on the very first bottle if it does not show you the way to lose ugly fat and help regain slender, more graceful curves.

Renell is low in cost and is not based on the diet and vitamin "plan." You need never know a hungry moment while reducing with Renell.

JOAN EDWARDS, Radio's HIT PARADE SINGING STAR....at C-O-O-L LAKE CLUB Saturday

JOAN EDWARDS

JOAN EDWARDS, lovely singing star who begins an engagement at the air conditioned Lake Club in Springfield on Saturday began her show business career under the aegis of her famous uncle Gus Edwards, who also coached Eddie Cantor, George Jessel, George Price and many others to the pinnacle of the show world.

Starting in a small station in Brooklyn, she impressed Rudy Vallee who took her on for a guest spot on his famous variety program. She remained with him for 8 months.

There, she was found by Paul Whiteman who signed her for his Chesterfield Show.

Answering the overwhelming demand for in person appearances, Joan left Whiteman to sing as a solo star at the Hotel Pierre and Hotel New Yorker in New York City. Joan continued her numerous radio guest shows, then went into musical comedy essaying the lead role in the St. Louis Municipal Opera Company's production of "Too Many Girls." By the time she achieved the coveted position of singing star on the Hit Parade Program, Joan already was a national singing favorite. She had gone into the Wedgewood Room at the Waldorf and shattered all precedent by appearing there for ten consecutive weeks. Concluding her series on the Hit Parade, Joan is on a personal appearance tour of theatres and night clubs from coast to coast.

In addition to Miss Edwards, the Lake Club, as usual, features a famous orchestra and additional floor show acts. Famous for fine food, the Lake Club features complete dinner service from 5 P.M. First floor show on Saturdays at 10 P.M., Sundays 9 P.M., and Weekdays 10:30 P.M. (D.S.T.) Adm. 60c. Reservations 2-0406.

Many Children Find Guidance And Help At Probation Office

BY ROBERT E. BRADNEY

Since the Morgan county probation office was set up in the court house a couple of months ago, things have been happening. The office of Major Henri Servais, county probation officer, is becoming a familiar sight to a lot of discouraged kids who have found they have a sympathetic friend instead of the strict, Hollywood version probation officer.

Morgan county, lying in the center of the corn belt, is ordinarily not a center of vicious crime waves. There are no city streets to entice the youngster, no gangsters to incite his envy, and no "gangs" to plunder the neighborhood and battle the cops.

Marjorie Bruce Attends Seminar In Washington

Miss Marjorie Bruce, 845 West College avenue, has been selected to attend the Washington Student Citizen Seminar sponsored by the national student YWCA and YMCA. Only 90 students throughout the United States have been accorded this honor.

MISS MARJORIE BRUCE

Miss Bruce, daughter of Mrs. Ella Newman Bruce, is a student at Northwestern. There she is a member of Shi-al, all school junior women's honorary society, an officer in Delta Zeta, editorial staff member of the "Purple Parrot" and desk editor of the "Daily Northwestern," the campus newspaper. Miss Bruce has been employed as a reporter for the Journal Courier several summers.

The annual seminar, now in its fourth year of operation, provides an unusual opportunity for college students to study government firsthand in the nation's capital while, at the same time, working on a full-time job in government agencies or in the offices of Congressmen.

The seminar opened June 23 and closes August 31. During the first two weeks students spend full time attending congressional hearings, observing the Senate, the House and the Supreme Court in session and meeting with informed Washingtonians. During the remaining nine weeks, while on their various jobs, they will also devote 8 to 12 hours a week in seminar and field trips. Officials of federal agencies will lecture and lead discussion groups. Mrs. Herbert Abraham will serve as director of the seminar.

Through the combined experience of work and study, students will gain a better understanding of the problems of federal government and the responsibilities of individual citizens in a democracy.

The fortunate 90 are selected both on the basis of scholarship and leadership in civic and religious activities. Few of them expect to make a career in government, but all look upon this as an opportunity to become better informed citizens.

There are large playgrounds, and better still, there is a big country-side which is much like that described in Twain's novels, "Tom Sawyer" and "Huckleberry Finn." So some might think there is no need for a probation officer in Morgan county.

108 Cases
However, the cold facts are that in the short time Major Servais has been open for business, 108 cases have come before him. Not all are police cases. Some are disciplinary problems, and some just kids who found themselves in trouble and voluntarily went to the big bearded Salvation Army officer for help. But there are also cases turned over by the court, probationers and parolees.

Major Servais says that he tries to get the children before anything is entered on the court record. In this way the problem can be ironed out and there is no big leather-bound book with a smear against the child.

When asked how he handled his cases, the Major smiled.

"Well, we just talk the thing over and try to work something out together. I first of all put my 'boys' on the merit system."

The merit system is deserving of its name. It is based on a point system. Take the case of Johnny Jones for instance. There is no actual Johnny Jones, but there are a lot of people like him.

Caught Lifting Toys
Johnny was caught lifting toys out of the five and ten cent store.

This wasn't the first time this had happened. His parents knew not what to do with him. Neither did the police officials who readily admitted that the law is written for adults and not for children the age of Johnny. Johnny was turned over to the probation officer, Major Servais.

There he was asked to fill out a simple form which would give vital facts concerning his problem. The file was not only for the eyes of the probation officer and would not be recorded as a court record.

The merit system, it was explained to Johnny, could only work if Johnny would let it. Would he report once a week? Would he go to church with his parents? Would he mind what his parents told him, cut out his bad habits, and help his folks when they asked him?

Get 10 Points
If he'd do all these things, he'd get 10 points per week.

During the first 13 weeks the court was advised of Johnny's progress. Johnny wasn't perfect. He skipped school one warm day and went swimming, and once he was seen smoking. But Johnny was truly sorry that these things had happened and even broke in tears when Major Servais told him he'd violated his confidence when he broke the rules. Johnny was beginning to feel pride in accumulating points.

During the second 13 week period it was felt that Johnny had made such progress that he would only have to report once a month. Johnny had learned to like Major Servais, though, and kept coming in every week. It was a manifestation of the close relationship built up between the probation officer and his "boys."

By the third 13 week period, Major Servais recommended Johnny's release. Johnny had come to realize that it was more fun to have people proud of him than to look upon him as a bad boy. And this wasn't difficult, because the truth of the matter is that Johnny wasn't a bad boy in the first place, he was only a young kid in trouble.

Most Same As Johnny

Major Servais said that most of his boys were somewhat like Johnny. "It is a known fact," he said, "that human nature has unrestrained and strange quirks which very often are not criminal in nature but are the fore-runners of trouble ahead."

The probation office, like most such offices, doesn't confine its activities to probation work but investigates institutional cases, handles domestic difficulties, and all the things that can do wrong in human life.

"Not all runs smoothly in my office, though," the Major said. "Occasionally someone breaks the rules and has to be hauled in. The boy is always surprised to discover that I know of his conduct for the past month."

But these cases are the exception, not the rule. "It is a source of inspiration to see that the great majority of the cases are well behaved and really appreciate the chance they have been given."

Menu For Today: Mammoth Marrow

By Hal Boyle

New York —(P)—Tired of eating the same old things? Want a new flavor thrill?

Then why not try some tasty marrow from a woolly mammoth aged for 10,000 years in nature's northern ice-box? You'll never forget it.

Charles R. Knight has remembered the sensation for 25 years. He is an artist famous for his pioneering paintings of prehistoric life.

"About a quarter of a century ago the American Museum of Natural History got some bones and flesh from a woolly mammoth, trapped in the Alaskan ice perhaps 10,000 years before," he recalled.

"We were curious as to what it would taste like, so we tried some of the marrow. It tasted exactly like rancid grease."

Nobody asked for a second helping. Knight feels he was luckier than some Russian scientists who dined on the flesh of another woolly mammoth caught long ago in the Siberian deep freeze.

"They got awfully sick," he said. "All the world's a graveyard to this 74-year-old artist, who perhaps as much as any one man has helped the past come alive. Since 1894 he has specialized in painting prehistoric men and animals, and he was the first to do so scientifically—based on reconstructed fossils."

Not Much To Brag About
His large-scale murals hang in a dozen well-known national history museums across the country.

His 55-year study of the earth as it was in the days of the dinosaurs has convinced him modern man doesn't have too much to brag about. "Ancestral man has existed for perhaps a million years," said Knight, "but he didn't assume his present manlike shape until the cro-magnon man of Europe, some 30,000 years ago."

"And the cro-magnon was just as good a man as we are, mentally and physically. The cro-magnons averaged 5 feet 9 inches tall, but some were 6 feet 3 or 4 inches."

"You could bring a cro-magnon man to New York City today and after you had shown him a few wonders, he'd be able to get along all right."

Must Advance Spiritually
Knight is convinced that mankind's biggest defeat is his failure to develop spiritually. "With all our advantages we haven't advanced spiritually, as we can and should and must," he said. "I don't think that spiritually we are better than cro-magnon."

"Confucius, Christ, Mohammed—these and other messiahs have told us a thousand times what to do. We know what to do—but we don't do it. I don't know what to make of modern man. He throws away his possibilities. He is a deliberate fool—the worst kind of a fool."

But Knight thinks there is little use for man to trust that nature will bail him out of the trouble he is getting himself into.

"He will destroy himself unless he returns to more spiritual ways. He's a goner. "Nature never helped any animal out of a hole. She won't help man out either. And he has problems just like any other animal."

Scouts From This Community Can Enroll For Camp

The Abraham Lincoln Council Camp on Lake Springfield will still accept a few more Scout campers from this area, it was announced Thursday by D. M. McDermott, district executive.

Scouts and leaders are urged to contact the Scout office if they are interested in attending.

The first four periods accommodated capacity crowds and the remaining periods are filling up fast. Mr. McDermott stated that it is the hope and wish that every Scout troop from this area have a group in attendance at the 1949 camp season of Camp Illine.

The camp is operated on a troop basis, with scouts taking part in the program that they feel interests them most. Boating, swimming, canoeing, life saving, bird study, camping, archery, Indian lore, nature study, and camp fires are offered.

On Thursday afternoon there is an aquatic meet. In the evening the Order of the Arrow pageant takes place when parents, friends and public are invited to attend.

The periods that are still open are from July 17th, 24th, 31st and August 7th. Additional information may be secured from the Boy Scout office.

Club Holds Supper At College Cabin

The Jacksonville Junior Woman's club closed the activities of the year Thursday evening with a potluck supper for members and their husbands. The supper was held at the McMurray cabin. Mrs. May Graves, president, was chairman of hostesses. Hostesses were incoming officers. They include Mrs. Dorothy Peabody, Mrs. Marjorie Clark, Miss Lois Crowcroft and Miss Jo Moss.

Bingo was enjoyed at the close of the evening with several prizes being awarded.

Raise Over \$500,000 For New Hospital At Effingham

Effingham, Ill., June 23—(AP)—An emergency surgical center, to serve until the ill-fated St. Anthony's hospital is rebuilt, opened today. A fire destroyed the hospital April 4 and 5 at a cost of 76 lives.

The 19-patient center is in what Catholic sisters had used as a convent, next to the hospital site. Five surgery cases were planned for the first day.

Meanwhile officials of a public fund raising drive announced that more than \$500,000 has been contributed toward a new hospital. A total of \$600,000 is sought as the local share in building a \$2,400,000 hospital. State and federal money will be asked for two thirds of the costs.

Plaques Awarded To Waverly and New Berlin FFA

Future Farmer chapters of Waverly high school and New Berlin high school were among the 20 chapters named this week at the University of Illinois to receive Illinois Bankers Association bronze plaques for outstanding accomplishments.

The Lanark high school chapter of Future Farmers was announced as the statewide winner of the 1948-49 FFA chapter activity contest.

Announcement of the names of the winning chapters was made by John H. Crocker, vice president of the Citizens National Bank of Decatur, and chairman of the committee on agriculture of the Illinois Bankers Association. Winning of a chapter activity contest signifies that that particular chapter has been most active in the work of the Future Farmers of America and has demonstrated its superiority over the other chapters in its section.

The awarding of plaques for 1948-49 marks the second year of the Illinois Bankers Association participating in a ten year plan for making awards to outstanding groups of farm youth organizations.

Jerseyville Youth Graduates From Naval Academy

Jerseyville, June 23.—Mr. and Mrs. Edward J. Oth and son, David, of Jerseyville, and daughter, Miss Marion Oth of Maplewood, Mo., returned Monday evening from Annapolis, Maryland, where they attended the Commencement exercises at the U. S. Naval Academy. Edward J. Oth, Jr., son of Mr. and Mrs. Oth, was a member of the graduating class at Annapolis, and was commissioned as an Ensign in the U. S. Navy.

Ensign Oth was graduated with distinction, ranking twenty-third in a class of 790 graduates. He has maintained a place on the honor list at the Academy during his attendance there.

Ensign Oth has been assigned to the crew of the Destroyer "The New" being one of two men in his class appointed to the ship. He reports July 5th to his home base, Norfolk Virginia, for duty.

RECORD MINE STILL GOING STRONG

Bingham Canyon, Utah.—(AP)—The largest open-cut copper mine in North America now is an excavation covering 855 acres. It has been in operation since 1904 and normally employs 2,400 men. The mine has 45 levels and there are 138 miles of standard gauge railroad track in it. Large scale milling permits operation despite the low grade of the ore—now about one per cent copper with minute quantities of gold, silver and molybdenum. It is run by the Kennecott Copper Corporation.

FIRE WITHOUT MATCHES IN 25 SECONDS

Darwin, Australia.—(AP)—An Arrhem Land (northern Australia) aboriginal made a fire with two sticks in 25 seconds recently in a demonstration before 20 white Australian Boy Scouts here. The aboriginal, Ralwala, the chief of a tribe, repeated his performance several times. Although he patiently explained his method, none of the white Scouts was able to repeat his feat. One result of Ralwala's skill is that: Darwin Scouts will shortly form a special scout troop for full-blooded aboriginal boys.

BRYCE CANYON BAD PLACE TO LOSE COW

Bryce National Park, Utah.—(AP)—To the tourist Bryce Canyon is an amphitheater filled with pink formations resembling people, spires and minarets, castles and bridges. To the first man to settle near its mouth, it was also something quite different. It was made a national park in 1928 and named after Ebenezer Bryce, a Mormon pioneer. Asked for his reaction to the scenic spot, Bryce was reported to have agreed it had fantastic beauty and to have commented: "I remember it was a bad place to lose a cow."

COP TURNS PLANNER

Chicago.—(AP)—A new police station to be built on the south side should be O.K. from a cop's point of view. The plans were drawn by Policeman Michael Foley. He used to be a draftsman.

Hirohito Still Popular in Japan

By WILLIAM JORDAN

Tokyo.—(AP)—If Emperor Hirohito had to submit to a referendum, there is no doubt he would retain his job. The reception the little monarch received on a recent extended tour of Kyushu, Japan's southernmost island, indicated his people hold him in deep respect and affection.

Wherever the emperor went, he received a tremendous welcome of waving flags and wild cheering from vast crowds. This for a man whose "divinity" has been stripped away and who now is no more than a "symbol of state." While the cheers for him were unanimous, they seemed to be divided into three categories.

At Nagasaki, for example, there was a section reserved for "persons of great age." When the emperor passed slowly in front of these patients, all 70, 80 or older, they

yelled and waved their flags like everyone else, but their expressions set them off from the rest. They looked as though, in seeing the emperor, they had seen a miracle, something to treasure in their minds for the rest of their days.

Younger adults cheered just as wildly, but many of them when they saw an American watching them, seemed embarrassed. These were the young men and women who had been reared in the story of imperial divinity and were confused when he renounced that claim after the

For the children, the emperor's visit meant a holiday, and apparently nothing more. Happy to have a day off from school, they cheered everybody—a jeep full of American correspondents as heartily as the emperor's maroon limousine. One teacher was heard trying to shush her little pupils, telling them, "that's not the emperor, that's an American."

Salton sea in the Colorado desert was a salt marsh before 1905, when defective irrigation canals turned it into a lake 40 miles long.

ILLINI GIRLS' STATE-ER

NEWS OF ILLINI GIRLS STATE WRITTEN BY ITS EDITORIAL STAFF.

Editorial

The purpose of Illini Girls State shall be to provide citizenship training for Illinois girls of high school age; to afford an opportunity to live together as self governing citizens; to become informed about the duties, privileges, rights and responsibilities of American citizenship in order that we may understand and participate in the functioning of our government.

We who have been granted the privilege of citizenship in Girls State must recognize as our duty that we take advantage of this opportunity and get the most information and experience that we can. When we return to our home towns, we must put into use the knowledge which we have gained.

Although not stated in the Girls State Constitution, it would be well if one of the main projects of each citizen were to advertise, promote and explain Girls State in her own home town. This is necessary because many citizens of Illinois do not seem to know what Girls State is, does and stands for.

Also, while preparing ourselves for better citizenship in our towns, state and nation, let's train for citizenship in One World. The world is now united geographically, economically and socially, and soon, may well be "One" politically.

Last, but definitely not least, when we leave Girls State, let's remember all the wonderful times we have had and the many new friends we've made for surely there is great gain in that.

Murphys Meet One Another at Girls' State

The citizens of Murphy County in Jane Hall had the privilege of seeing and hearing the man for whom their county is named, Matt Murphy, who gave the lecture on "Police Protection." He was Department Commander of the American Legion in 1935. He is a veteran of World War I and II and is now associated with the Chicago police force with the rank of Captain—Carol Nelson.

Dorothy A. Mentel, Valmeyer, Ill., who is a citizen of Mucklesville City had her poem, "Thanksgiving," accepted by the American Poetry Association for publication in the Nationality of high school poetry.

Mary O'Neill, Lake Forest, Ill., a citizen of Mieszynski City, wrote an essay, "Illinois Place in America Today," which won third in a recent essay contest.

Temporary city officials were appointed by Clamag County councilors Tuesday. Miss Patricia Riehl, Dargan City councilor, appointed Barbara Bitter as Chief of Police and Marian Stewart as City clerk.

Mrs. Gladys Edson, temporarily acting as Ennis City counselor, appointed Ellen Horn as Chief of Police.

Right Technique Can Slow Down Reckless Driver

Have you ever been out with Beckless, the town's speed demon? As soon as the car door shuts behind you, you're off, your heart in your mouth and your stomach doing flip flops. After a ride like that you never the same again.

Maybe Beckless rates with you, but we bet he doesn't with your parents. They may have some very nice and, as far as you're concerned, very boring boy in mind. Don't get us wrong, you may be very well content with your parent's choice, but if you're not it doesn't have to end there. Girls were always good persuaders.

Reckless may never pay one bit of attention to parents or to policemen, but a girl, if she knows how can persuade him to ease up on the gas. In the first place you must never appear amused or frightened by his driving; instead be indifferent or bored. The next step is to engage him in conversation and talk fast. Keep him so busy talking that he can't concentrate on driving fast.

Don't expect the reform to take place overnight, but if he likes you enough and you use your influence in the right way, you can put him on your parent's approved list yet. Reckless driving may not be the only ill on your parent's list, but there's a cure for them all. We'll leave it up to you girls.

Field of Medicine Offers Challenge To Teen-Agers

Medicine is a fascinating world for the teen-ager who wants to be a doctor, nurse, or scientist. All these occupations give the teen-ager an opportunity to serve the people of the world.

The people suffering from diseases have a chance to be healthy again through the work of the doctor, nurse and scientists. The doctor in the small rural area as well as in the large modern hospital has an important job.

Many teen-agers dream of being a great surgeon; others want to be a general doctor in the rural area. The nurse has an important part to play by helping the doctor and caring for the patient. The scientists play an important part in the world of medicine by discovering new drugs to help cure diseases.

To the boy or girl who is interested in helping others the field of medicine is open to them.

Broom Award Goes To Esper County

First County broom awards were presented at the Wednesday morning assembly. Esper County was the favorite, receiving the award of the golden broom for their neatness in quarters. The award of the dirty broom went to Cation County, whose sorry offenders were so badly chastised to be told of their lack of neatness, including the severe offense of a wash cloth spread on a radiator, and a towel draped across a bed! Sorry girls of Cation County!

Each day the 1949 Girls State officers will inspect citizens rooms and the awards will be presented in accordance with their recommendations.

NATURE'S EXCAVATION PROJECT
Zion National Park, Utah — 40 — Nature is busy carrying 3,000,000 tons of rock and dirt out of Zion canyon each year.

That's the amount scientists estimate is eroded and carried away by the little Virgin river in the half-mile deep canyon. The gorge grows deeper each year, mainly because the stream has a rapid fall of 80 to 90 feet per mile.

QUESTION BOX by MILDRED MYERS

June 21—A day to be remembered by many girls.

Yes, it was the official opening of Illini Girls' State. After the what seemed to be endless waiting in line for registration and a physical check-up by the nurses, the Girl Sisters were shown to their rooms. It had been only a short time for them at Girls State but yet this reporter wondered what they had liked the best so far. The Inquiring Reporter received the following answers from the girls of Seymour City when asked what they liked best about Girls State.

DORALEE GEFERT—I like the beautiful buildings.

BARBARA HAMM—The soft beds.

ELAINE KROON—It keeps getting better all the time.

MARY JANE BROWN—The people, the buildings and the friendly atmosphere.

OLLIE HEAD—The beautiful rooms.

MARCELLA JOHNSON—I like the friendly people and the rooms.

MARY JO TRUMMEL—The rooms, I guess.

HELEN BILLET—I like the rooms best so far.

DOLORES KOLSTEDT—I like the rooms best.

Monarchists Still Dream in Bavaria

Munich—(AP)—Diehard monarchists still dream of reviving a south-German kingdom of Bavaria. Their king would be Crown Prince Rupprecht, 80-year-old son of Bavaria's last reigning king, Ludwig.

Ludwig lost his throne in 1918, along with all other royal German rulers in the post-war collapse of Kaiser Wilhelm's imperial Reich.

Since then Bavaria has been just another German state. Its governors were elected, not born into office. Its once rich and powerful monarch seemed to be only a dead relic of an age gone by—fit only for museums which its castles had become.

But the loyal followers of the throne continued to dream.

They gave a convincing demonstration of this recently when Crown Prince Rupprecht celebrated his 60th birthday. Thousands of people from all over Bavaria turned out to pay him homage. Celebration turned into a series of truly royal receptions.

The monarchists made one big political attempt recently to realize their dreams. In the confusion of Germany's second defeat they sensed a chance to recoup what they had lost in the first world war. In 1946, they formed a political party. They called it the "Koenigsparthei," or "king's party." Almost overnight 10,000 persons from the city of Munich alone rallied to the royal colors. All over Bavaria the movement spread.

U. S. Military Government soon stepped in and banned the party on the grounds that it had become a "playground for fascist elements." Party or no party, however, the monarchist dream continued to smolder. Monarchists and monarchist sentiment emerged in several other parties. Strongest supporter of Bavarian monarchism now is the Bavarian party, a minor but

growing organization which exploits the traditional desire of Bavarians to be independent from all the rest of Germany.

THE DOCTOR SAYS

Danger of High Blood Pressure Grows With Age

By Edwin P. Jordan, M.D.
Written for NEA Service

High blood pressure, called hypertension in medical circles, is one of the most dangerous enemies of modern man. About six hundred thousand men and women become afflicted in the United States alone every year. There are several different conditions which lead to high blood pressure. One of the most important is hardening of the arteries, or arteriosclerosis.

Practically all of the different kinds of high blood pressure as well as hardening of the arteries tend to increase in the later years of life. It has been recently stated that every person over the age of 45 has a 50/50 chance of dying from high blood pressure, apoplexy, a heart attack, or some similar condition related to high blood pressure or arteriosclerosis.

So far as is known, there are several different causes involved in the development of high blood pressure. Some of them are known, can be discovered, and can be remedied. However, in the majority of cases, the cause or causes are not yet fully understood by medical scientists.

Examination Helps

What can be done about these great killers? Today one of the best things is to have an examination, including measurement of the blood pressure, taken at regular intervals so that the first signs of an increasing blood pressure can be recognized. If found early some patients can be cured; in other cases the mere fact of an early diagnosis makes it possible for the physician to give advice which slows down the development of the symptoms and complications of high blood pressure.

One organization, the American Foundation for High Blood Pressure, located in the Marion Building in Cleveland, is collecting funds, principally from generous businessmen, to attack the problems of hypertension and allied diseases.

This foundation has already provided financial support and encouragement for needed research work in many parts of the country and for the exchange of information by the investigators. This kind of help is an invaluable stimulus to the solution of a difficult problem.

Note: Dr. Jordan is unable to answer individual questions from readers. However, each day he will answer one of the most frequently asked questions in his column.

THE DOCTOR ANSWERS

QUESTION: What is the reason for excessive perspiration on the palms of the hands?

ANSWER: The most likely reason seems to be a "nervous" disposition. Some people perspire more on their palms, especially under conditions of emotion or strain, than others. The exact reason is unknown.

JAPAN BOOSTS MINE SAFETY AND PRODUCTION

Tokyo—(AP)—Japanese miners are learning that increased coal production doesn't mean increased accidents—as they had expected.

A safety drive was conducted under occupation auspices at Joban coal mine in April. The monthly average of injuries was 539, but the total in April was only 257. Coal production increased 14,645 metric tons over the monthly average.

say leading agricultural authorities
Here is a New, Safe, Easy Way to Kill Worms
—and keep your pigs gaining during the process

It's a new product containing Sodium Fluoride PLUS other added ingredients (a gentle laxative and special blood-building minerals) that "cushion the shock" of worming—keep most pigs gaining right through the worming process. It's called PAY-U LARGE ROUNDWORM EXPELLER.

You simply mix a small amount of PAY-U with the feed (directions in each package) and feed the worms out. No catching, no starving, no drenching. The pigs "worm themselves."

Ask us about PAY-U LARGE ROUNDWORM EXPELLER—the SAFE worm expeller containing the ingredient recommended by U. S. D. A. scientists as the most effective killer of large roundworms—SO-DIUM FLUORIDE. We've just received a fresh supply.

Three-Ply Killing Helps Phils Take 9-3 Buc Decision

Pittsburgh, June 23—(AP)—The scrappy Philadelphia Phillies pulled a triple play against the Pittsburgh Pirates today, then went on to slam out a 9-3 decision over the Pirates to give them three out of four of the series.

Second baseman Eddie Miller, who started the three-play killing in the third inning, hit his sixth homer of the year with two on in the sixth when the Phillies scored five runs after two were out. Stan Lopata gave the visitors their other two runs in the big inning as he hit for the circuit with one aboard.

Dino Restelli, New Pirate outfielder, now has six circuit blows in 10 games. He hit another round tripper today.

Braves Pound Cubs In 12-5 Tussle To Gain Series Split

Chicago, June 23—(AP)—The Boston Braves pounded five Chicago Cubs hurlers for 15 hits here today for a 12-5 triumph that split the four-game series.

Dutch Leonard was routed with a four-run blast in the first inning in which the big blow was a three-run homer by Bob Elliott, his fourth of the season. The Braves were never headed thereafter. One of their other wallopers was Elbie Fletcher's No. 2 homer.

Warren Spahn went the route for the Braves, allowing eight hits for his ninth win. One of the blows off him was Hank Sauer's seventh homer with two mates aboard.

The defeat was the ninth for Leonard against only two victories.

By innings:

Boston	400	011	041	—12	15	1
Chicago	100	003	100	—5	8	4

Spahn and Crandall; Leonard, Kush (1), Adkins (6), Lade (8), Chipman (8) and Novotny.

HRRs: Boston—Fletcher and Elliott; Chicago—H. Sauer. Losing pitcher—Leonard.

7 To 2 Victory Over Reds Keeps Brooks In NL Lead

Cincinnati, June 23—(AP)—Lefty Joe Hatten, who apparently can do no wrong when he takes the mound against Cincinnati, whipped the Redlegs for the third time of the season today—this time by a 7-2 margin.

The triumph enabled the Dodgers to stay a half game ahead of the second place St. Louis Cardinals.

Hatten held the Reds to six hits, but nevertheless was behind by 1-0 until the sixth when Marv Rackley hit his first major league home run with Peeewe Reese aboard. That put Burt Shotton's crew in the van and they never were headed.

The Dodgers managed to touch three Red hurlers for only seven hits but they took advantage of eight walks.

By innings:

Brooklyn	000	002	410	—7	7	1
Cincinnati	010	000	001	—2	6	1

Hatten and Campanella; Erault, Fanovich (7), Gumbert (9) and Cooper. HRR: Brooklyn—Rackley. Losing pitcher—Erault.

Cleveland Captures 4 To 3 Victory From Senators

Washington, June 23—(AP)—Second baseman Joe Gordon's leaping stab of Eddie Robinson's liner with the tying run on third base and two out in the ninth preserved a 4-3 victory for Cleveland over Washington tonight before a crowd of 21,694.

Early Wynn was driven from the mound with one out in the ninth but received credit for the triumph, his fourth without a defeat.

By innings:

Cleveland	200	001	010	—4	10	0
Washington	000	100	002	—3	13	1

Wynn, Zolack (9) Paphis (9) and Hegan; Calvert, Hefner (8) and Evans. Winning pitcher—Wynn. Losing pitcher—Calvert.

Boston Red Sox Win Over Browns In 7-0 Shutout

Boston, June 23—(AP)—Rookie left-hander Maurice McDermott pitched a three hit shutout tonight in steering the Boston Red Sox to a 7-0 triumph over the St. Louis Browns. McDermott faced only 28 batters in winning his second major league victory. He walked two and struck out six. Four Boston double plays limited the Browns to one left on base.

Now a Brownie reached second against the slim left hander, who will be 21 years old August 29.

McDermott has had a reputation for wildness but tonight he needed only 108 pitches to notch his second decision in as many starts.

Al "Zeke" Zarilla hit his fifth homer of the season for the Sox.

By innings:

Boston	000	000	000	—7	12	1

Garver and Lollar; McDermott and Batts. HRR: Boston—Zarilla.

Two Fullbacks Named To All-Stars

Chicago, June 22—(AP)—Ben Bendrick of Wisconsin, and Harry Jagade, of Indiana, both fullbacks, were named today to the college all-star football squad which will meet the Philadelphia Eagles in the 16th annual classic Aug. 12 in Soldier Field.

Bendrick, a 200 pounder from Wausau, Wis., played four seasons for the Badgers, Jagade, from River Grove, Ill., was one of Coach Bo McMillin's stars in 1944 when Indiana won seven out of 10 games.

Cards Half Game Out; Blast Giants 10 To 6

St. Louis, June 23—(AP)—The St. Louis Cardinals made the most of six hits and four Giant errors today to whip New York, 10-6. Seven of the Card runs were unearned.

The victory gave the Cards the series, three games to one, and kept them on the heels of the pace-setting Brooklyn Dodgers, who lead by half a game. Brooklyn beat Cincinnati, 7-2.

The Giants outhit St. Louis, 12 to 6, but unsure fielding and loose pitching in the clutches proved their undoing.

Soap box derby hopefuls—the time is short to get your name on the dotted line for entrance into the Jacksonville wing of the national flasio which is being staged July 17. Better hurry and shake Dad down for a few bucks so you can register and start building your coaster. The entry deadline is June 29.

The roller carnivals—as in past years—being staged by the Exchange club under the cooperative sponsorship of the Corn Belt Chevrolet Company and the Jacksonville Journal-Courier. Officials are vitally interested in seeing 40 boys compete in the local race.

Those House of Clay softballers are going to be tough on anybody's diamond if they retain the one-man mound staff that they brought out from under the wraps Wednesday night. Nesbitt—a sly right-hander—kept the Roodhouse club loosened up with his blinding speed, and made them miss or pop up with a very effective "riser" pitch. He whiffed 12 Greene county clubbers in racking up a 6-0 inaugural victory.

Clay's boys have another twirler, Lefty Jackson, who is a "fair country ball player." He is to date—the only senior league chucker who has registered a no-hit ball game. He accomplished this feat against the Litterberry nine, blanking them 2-0.

Michigan State Withdraws Request In Baseball Ouster

East Lansing, Mich., June 23—(AP)—Michigan State college today announced it has withdrawn its request for reconsideration of a western conference decision banning four Spartan varsity baseball players.

The action was announced by Dean Lloyd C. Emmons, chairman of the athletic council. He said he made the withdrawal in a telephone conversation today with Kenneth L. (Tug) Wilson, Western Conference commissioner.

"The withdrawal," Emmons said, "does not mean that we have changed our position as to the merits of the original decision. We still think it was wrong."

"However, two of the boys concerned (outfielder Ed Sobczak and third baseman Dan Urbanik) have graduated. A third (catcher Frank Nagdon) has turned professional and a fourth (pitcher Charles "Buz" Bowers) is about to do so."

"There remains, therefore, no good reason for a reconsideration. The boys were our main concern in the matter and none of them could now be helped by further action."

The four were banned from college ball just before the end of the baseball season. The reason given was that all four competed for pay in a Vermont summer league. The college had objected that the ruling was retroactive as the incident occurred before MSC was taken into the Big Ten.

Byrne Hurls Seven Hitless Innings As Yanks Win, 12-0

New York, June 23—(AP)—The Yanks' Tommy Byrne came within a foot of pitching a no-hitter tonight as New York humbled the Detroit Tigers, 12-0. The left-hander hurled seven hitless innings before Shortstop Johnny Ligon laced out the line Tiger safety—a single that fell one foot inside the left field foul line.

Ligon caught hold of the first ball pitched in the eighth inning for his spoiler.

The Yankees' big bat noise was furnished by Tommy Henrich, who drove in five runs, two of them with his 15th home run in the first inning.

Batting Attack Carries Athletics To 11-4 Decision

Philadelphia, June 23—(AP)—A 14 hit batting attack, which included Sam Chapman's eighth homer of the year, carried the Philadelphia Athletics to an easy 11-4 decision over the Chicago White Sox tonight as Rookie Southpaw Alex Kellner chalked up his tenth pitching triumph.

Chapman had three other hits, a double and two singles to pace the batting barrage against Howie Judson, who was charged with his ninth straight defeat, Chick Pieretti and Clyde Shoun. The Philadelphia outfielder drove in four runs.

Kellner served up three home runs to Joe Tipton, twice and Steven Schoch.

Charles Will Fight Winner Of Lee Savold, Bruce Woodcock Tangle

Chicago, June 23—(AP)—Ezzard Charles, enriched by \$33,837.30 and the NBA share of Joe Louis' vacated heavyweight crown, today made plans to meet the winner of London's Sept. 6 Lee Savold-Bruce Woodcock fight for the undisputed crown.

"I'm not going to fight no Gus Lesnevich," said Jake Mintz, one of the four managers of the new champ, "no Joey Maxim. I'm going to accept the challenge of the Savold-Woodcock winner."

DEGREE FOR FARM EDITOR

Cecil Tendick, farm editor of the Jacksonville Journal-Courier received the honorary state farmer degree of the Illinois association, Future Farmers of America, when the group held its 21st annual convention in Urbana. George Lewis of Hersman (right) made the presentation.

In awarding this degree, the highest the state association can give, the executive committee applauded Tendick's timely report on west central Illinois agriculture. He was nominated for the degree by the unanimous vote of the 25 F.F.A. chapters in Section 15, comprising Morgan, Scott, Pike, Macoupin, Greene, Jersey and Calhoun counties.

The association conferred 12 honorary degrees upon rural leaders, officials of organizations, educators and editors.

Other editors complimented were C. L. Mast, Jr., of the Agricultural Leaders Digest, Paul C. Johnson of Prairie Farmer and Kendall White of the Journal-Courier-News.

Tendick has been farm editor of the Journal-Courier since his discharge from the army in 1945.

Morgan Gardeners Plant Five Trees At Youth Center

Five memorial trees have been planted at the local youth center as a part of the landscaping project undertaken by the Morgan Garden club, under the direction of Mrs. Courtney C. Wright.

Trees were contributed by Mrs. Everett Long, Miss Juanita Coultas, Mrs. Fred Carter, Mrs. Harry Merriam and Mrs. John Boddy.

At a recent meeting in Ann Rutledge lounge on the MacMurray college campus, the club enjoyed a tour of the campus led by Mrs. Wright, who pointed out and explained the various shrubs and trees.

Three new members were introduced: Mrs. Lula Emory, Mrs. Louis Perbix and Mrs. Clyde Osley. Mrs. Charles Gibson was appointed tree conservation chairman. Mrs. Harry Merriam, chairman, conducted the session.

Mrs. Clarence Burrus, program chairman, introduced Hugh Beggs, who presented several piano selections. Miss Emma Mae Leonard talked on "The Seven Stages in Gardening," comparing them to the human life cycle from infancy through old age.

Refreshments were in charge of Mrs. E. Richardson, assisted by Mrs. Ray Shortridge, Mrs. Lena Kerns and Miss Charlotte Sieber.

Funeral Thursday For Robert Ogdon

Funeral services for Robert Ogdon were conducted Thursday at 2 p.m. at the Cody and Son Memorial Home by Rev. E. O. Woods, assisted by Rev. A. V. Harris.

The obituary was read by Mrs. Zella Woods.

Pallbearers were Bus Florence, Ben Shannon, Frank Walker, Nim Burbridge, Ray Berry and Grant Weir.

Interment was in Diamond Grove cemetery.

Rainbow Girls Plan Mass Church Attendance Sunday

Over 100 members of the Jacksonville assembly of Rainbow Girls will attend services at the First Baptist church Sunday morning. The mass attendance, required every four months, is a special honor accorded to the churches of the assembly's worthy advisers.

The present worthy adviser is Miss Martha Jane Lewis. Mrs. Mabel Olson is mother adviser.

The girls will meet in front of the church at 10:30 a.m. Those who cannot attend are asked to contact Miss Lewis or Mrs. Olson.

Rev. Clair E. Malcomson, pastor, has announced that his subject will be "The Road of Human Conduct, Love or Fear." Miss Mahala McGehee will be at the organ, with Mrs. Richard Thompson as soloist.

'Sacred Concert' Planned Monday At Murrayville

Murrayville—The Boys Christian Athletic club orchestra of the Talbert church near Santa Ana, Calif., will present a "sacred concert" in the Murrayville Baptist church Monday evening at 8 o'clock.

During the past two years the Talbert orchestra, which includes 21 young men, has toured the nation. Virgil Crawford is the director. Rudy Story of the Santa Ana high school, well-known blind student, also fills an important place in the orchestra.

The public is cordially invited.

A potluck supper will be served in the church basement at 6 p.m.

Mr. and Mrs. Herman Baker entertained the Couples Supper club at a 7 o'clock supper Sunday evening. Those included in the group were: Mr. and Mrs. Bruce Thomas, Mr. and Mrs. Harold McCarthy and Mrs. Howard Becker and Mr. and Mrs. John Cully of Jacksonville, Mr. and Mrs. Walrus Bealmer and Mr. and Mrs. Lyndal Symons.

Mrs. M. J. Smith held a family dinner Saturday evening in honor of her son, Dean Smith, and family of Topeka, Kans., who are here for a short visit.

Others present were: Mr. and Mrs. Leslie Smith of Modesto, Mr. and Mrs. Harvey Smith and family of Franklin, Rev. and Mrs. Lloyd Smith and children of Roodhouse, Mr. and Mrs. Ray Wankel and children, John Spencer and Miss Sula Smith.

Delegates Attend New Salem Picnic

Two hundred members of Gallaudet college alumni association met to New Salem recently to listen to the college's president, Dr. Leonard M. Elstad, tell of recent expansion.

The alumni are attending the national convention of deaf teachers at the Illinois School for the Deaf. Other social activities at the convention included a reception and dance in the ISD gymnasium by Mr. and Mrs. D. T. Cloud for the entire group of delegates. Wives of the visiting superintendents also enjoyed a luncheon and tea at the home of Mrs. Cloud.

ENJOY FISH FRY
A fish fry was enjoyed Sunday by 48 members and guests of the Loyal Berean class of Berea Christian church at the home of Mr. and Mrs. Robert Foster.

Following the bountiful noon meal, a social hour was held and pictures taken.

The next regular meeting will be July 17.

Severe Wind And Rain Storm Sweeps County; Property, Crops Hurt

A violent windstorm, accompanied by hard rain, struck Jacksonville and Morgan county at 2:30 p.m. Thursday. The storm swept in from the northeast, toppling over many trees, severing telephone and power lines and flattening thousands of acres of growing crops. There were no reported injuries due to the storm, however.

The northeast part of the county apparently got the brunt of the storm. Buildings were destroyed and trees uprooted on many farms in that section and damage to crops was moderate to severe. Hail lashed the fields of farms located north of Alexander.

Crews of repairmen were busy last night attempting to repair power and telephone lines, but only about a half of the homes in the city had electricity by midnight.

The Libertyberry vicinity experienced a very heavy rain. Some residents there estimated that three inches of water fell in 20 minutes. Big and Little Indian creeks soon spilled out of their banks, flooding hundreds of acres of adjoining farm land.

Thousands of falling tree limbs crippled the Jacksonville power system. They also hit several local residences, but no extensive damage to any house was reported. One large limb from a soft maple tree seriously damaged a 1937 Buick coupe owned by Mrs. Minet Long of Arenzville as it was parked in the 300 block of East State street.

The municipal airport north of the city was damaged. The wind picked up aluminum sheeting being used in the construction of the hangars and scattered them over a wide area. The force of the wind wrapped one sheet around a tool chest.

Old Strawn Home Damaged
The old Isiah Strawn home located north of Strawn Crossing was especially hard hit. Nearly half of the roof on the nearly century-old house was torn off by the wind and the rain flooded the 18 rooms and new and antique furniture.

Eighteen jack pine, walnut and mulberry trees in the historic grove were blown down. One jack pine, three foot through, was literally lifted out of the ground.

One chimney was knocked by lightning. A 60 foot implement shed was blown away. The large barn was moved about six inches off of its foundations. Pieces of the machine shed roof were carried a mile away.

The garage on the Glenn Lair farm just east of the Strawn farm was destroyed by the wind.

Building Watersoaked
The Morgan county Farm Bureau building was badly damaged by water. Workmen were installing a new roof and had just completed laying one layer of tarred paper when the storm broke. The wind tore the paper to shreds and blew it away. Water drenched the two floors and basement of the building.

Hail struck farm crops north of Alexander. Leaves of the corn were riddled, nearly ripe wheat and maturing oats were threshed by the pellets. Farmers whose fields were badly damaged included Clarence Schewe, Robert Foster, William Becker, Lloyd Smith and Roy Ward.

Firemen were called out three times before the storm was over. In two incidents electrical wires knocked down by falling limbs threatened residences at 633 S. Diamond street and 212 Franklin street. The department later went to the 700 block of E. Douglas where four telephone poles had been torn down by falling limbs. One of the poles caught fire.

Hot high-tension wires brought three more fire calls during the evening: 929 N. Clay, at 6:55 p.m., when wires fell on the roof; at 9 p.m. at 849 Grove when wires ignited tree limbs and at 10:05 p.m. at 602 N. West street when insulation began burning on lead-in wires.

Windows Shattered
A plate glass window on the west side of the building occupied by the Singer Sewing Machine company on the southwest corner of the public square was broken by the wind. Several globes atop the boulevard light posts on the square were blown off and shattered on the sidewalks.

Calls flooded into the police station reporting trees down and live wires sparking. The police also received word that trees were down on both Routes 104 and 36. All roads and streets were cleared by early evening.

Many large trees were uprooted or blown down by the high wind. At the home of Matthew McNamara, 904 North Main street, a tree fell across the front yard narrowly missing the house.

On Route 104 near the home of

James Belzer, at the corner of Liberia and Walnut streets a big tree was blown across the highway, but traffic was able to pass.

At the site of the new Passavant Memorial Area Hospital several trees were down.

At the Jacksonville Implement company, owned by Walter W. Wright, at the corner of Walnut and Sandusky streets, two plate glass windows, seven by seven feet, were blown in. A door 20 feet inside the building was torn from its fastenings by the wind.

Between Caldwell and Pine streets on Freedman a large tree blocked the thoroughfare.

At the corner of Caldwell and Lafayette avenues, traffic was entirely blocked when two big tree limbs fell across the street. Another tree tumbled over Lafayette avenue between Caldwell and Pine streets, blocking traffic and requiring City Buses to detour.

Repairmen Busy
Line crews from both the Illinois Power company and the City Power & Light company were quickly put to work repairing damage to power lines.

Sheriff Ralph Bourn and his deputies were joined by state police in handling traffic on highways leading into the city which had been blocked by trees.

Virginia reported an electrical storm and heavy rain, but no wind damage. At Arenzville the wind broke several windows. One was in the building, now unoccupied, that formerly housed the Cozy tavern. Another plate glass window was broken at the Bob Beard farm implement store. Lights and telephones were out in that area.

The storm reportedly extended east to New Berlin and south to Murrayville, but varied greatly in its intensity.

Damage to farm crops also varied greatly, even in fields that were only a few miles apart. Much of the heavy wheat in the county suffered great deal. It probably won't recover much, if any. The quality of the grain will suffer and combining the crop will be much more difficult, farmers said. Oats took a severe beating, but have a chance of recovering.

Injury to corn ranged from the splitting of the long leaves to nearly 100% damage.

Roodhouse Bridge Club Convenes At Hopkins Home

Roodhouse—Mrs. J. Lee Hopkins entertained her Wednesday afternoon bridge club at her home west of town, June 22.

Those present were: Mesdames Gertrude Westergard, Roderick McClure, W. J. Reilly, John Roberts, J. R. McConathy, J. M. Martin, W. W. Wilkinson, W. A. Wilkinson, Gladys Cuddy, William Worcester, Fred Strang, Katherine Gilmore, Merle Mackey, Jack Tennill and D. O. Shade and Miss Mabel Hopkins.

Prizes were awarded Mesdames Jack Tennill, Roderick McClure, J. R. McConathy and W. J. Reilly.

A 5 o'clock plate luncheon was served by the hostess.

To Visit In New York
Mrs. Carrie Harp of this city and her daughter, Mrs. O. C. Stone, of White Hall, will leave the last of the week for Sackets Harbor, N.Y., where they will spend two weeks in the home of Mrs. Harp's son, W. Aubrey Harp, and family.

Lt. and Mrs. Earl Smith and family returned Wednesday to Topeka, Kans., where he is stationed.

Mrs. Urban Andrews returned to Our Saviour's hospital Sunday.

W. W. Wilkinson, program chairman at Rotary Wednesday evening, introduced Rev. Charles Vanduetum of White Hall as guest speaker.

Public Welfare Chief Addresses Convention

Fred K. Hoehler, director of the department of public welfare, delivered the main address last night at a meeting of the national convention of American instructors of the deaf at the deaf school auditorium. He stressed the contribution to society that teachers of the deaf could make.

"As we teach youth," he said, "we have an obligation to teach them that man is a human being and has certain rights. Our job is to teach these young people to respect those rights."

Hoehler stated that if the spirit of brotherly love can be inculcated in the teachers, then the profession will be doing more than public welfare.

Earlier in the day an "artificial ear," perfected by the Bell Telephone Laboratories, was demonstrated. Dr. Earl Schubert and Miss Doris Richards of the Michigan School for the Deaf gave a report on experiments conducted with this machine.

Hugo Schunhoff and Samuel A. Kirk were co-chairman of a session in which technical papers were presented. They were read by Miss Catherine Adams of Champaign; Richard Brill, Lewis V. Peterson, and Arthur D. Mays of the University of Illinois; Miss Helen Dial and Milford Cress of Jacksonville; Miss Jane T. Pearce of New York; H. M. Hoffmeyer for Dr. Powrie V. Doctor of Washington.

Kenneth Huff closed the program with a series of sectional meetings. Others who took part in the activities of the day included Joe R. Shingpaugh, William L. Fair, Stanley D. Roth, Mrs. Adelaide Killorin, Mrs. Maurine Snider, Lewis M. Mayers, Dwight Reeder, Charles W. Watson, Glenn Harris, Boyd E. Nelson, Lloyd Graunke and Mrs. Hazel McLaughlin.

JoAnn Winstead Attends National Student Council

Miss JoAnn Winstead, daughter of Mr. and Mrs. Jack Winstead of 950 N. Main street, returned home Thursday morning from a three day student council conference. The national meet, held at Cincinnati, O., was for district presidents of the council.

Miss Winstead, who will be a senior at Jacksonville high school, was recently elected to head the J.H.S. student governing body, and, at Galesburg, was chosen president of the Pekin district.

About 500 students and faculty members from 37 states and the Panama canal zone attended the conference, the theme of which was "Youth Leaders Today — World Leaders Tomorrow."

Charles P. Taft, brother of Senator Taft, spoke on "Religion and Education," stressing the importance of religion in successful cooperation between groups. Dr. H. C. McKnow, noted author and one of the student council founders, discussed the "Student Council's Part in Developing Tomorrow's Leaders."

Miss Winstead also attended several of the 20 discussion groups held and, with the other delegates, enjoyed a tour of Cincinnati. All of the council members were housed by the citizens of the city.

A formal banquet and dance was held Tuesday. The session closed Wednesday, after the students had attended the baseball game between the Cincinnati Reds and the Brooklyn Dodgers.

Miss Winstead's photograph, as she was greeted by the national president, John Avril of Cincinnati, was shown on the front page of the Cincinnati Post.

Mrs. Grace Hacker Dies Yesterday; Burial Saturday

Mrs. Grace Hacker, an employee of the Jacksonville State Hospital, died suddenly Thursday morning at her residence, 1054 S. East street. She had been suffering with a heart condition for some time.

Mrs. Hacker spent most of her life-time in the Concord-Chapin vicinity, but had been an employee at the hospital for the past seven years.

She was the daughter of Cyrus and Anna Ragan and was born at Sevierville, Tenn., on Aug. 12, 1900.

Surviving her are three children, Ada Marie Hundley of Virden; Raymond of Libertyberry and Paul of Jacksonville, and four grandchildren.

Also surviving are one sister and two brothers, Mrs. Bessie Nergenah, Chapin; Ernest Ragan, Quincy, and William Ragan, Concord, and one-half brother, John Brown of Concord.

One sister, Freda Ray, and a half-sister, Mrs. Dora Brown Gimbel, preceded her in death.

She was a member of the Royal Neighbors camp at Chapin.

The remains were taken to the Williamson Funeral Home, where services will be held at 2:30 p.m. Saturday. Burial will be in Chapin cemetery.

The family will meet friends at the funeral home from 7-9 p.m. Friday.

Martha Stratton, Indiana Architect Married Thursday

Mrs. Martha L. Stratton and Ralph E. Legeman were married in the garden at the home of Professor and Mrs. Joe Patterson Smith in Jacksonville at 2 p.m. on Thursday, June 23.

The Rev. Harris Pankhurst of the Congregational church performed the simple, dignified ceremony which was witnessed by a few close friends of the bride and groom.

Mrs. Stratton has been associated with Illinois college for a long time and for the past four years has been an instructor of government and physical education for women.

Mr. Legeman is a practicing architect with offices in Evansville, Ind. The couple will make their home in Evansville.

Miss Lenora Dawdy Of Hillview Weds Centralia Man

White Hall—Miss Lenora Dawdy, daughter of Mr. and Mrs. Charles Dawdy of Hillview, was united in marriage on June 18 at 4 o'clock at the Lutheran church, Pinckneyville, to Dr. Ottomar Bude of Alton, by Rev. Arthur Herkamp, brother-in-law of the groom.

The bride was attired in white organdie with white accessories and a corsage of red roses. Her only attendant, her sister, Mrs. Joseph Taylor, wore a green suit and a corsage of yellow roses.

Best man was Joseph Taylor. A reception followed the ceremony at the Taylor home in Alton. A group of relatives from the Hillview vicinity attended the wedding and reception.

Dr. Bude is the son of Mrs. Elizabeth Bude of Centralia, and is a practicing chiropractor in Alton where the couple will reside.

Advanced Swimming Class Begins July 6

Paul Hartman, secretary of the YMCA, announced Thursday that advanced swimming classes will begin for all people over 9 years of age July 6. The only prerequisite, he said, is that the pupil must be able to jump into deep water, swim fifteen yards, and swim back.

There is a particular demand for persons over 16 who are strong swimmers and who are interested in senior life saving, he said. Not only will there be a course in senior life saving, but there will be one in junior life saving for persons over 12.

"And also," Mr. Hartman said, "there will be an advanced class for non-life savers."

All sessions will be held at Nichols park swimming pool Monday through Friday at 10:30 a. m. The lessons will continue through July 29 and will consist of 18 lessons.

Mr. Hartman announced that 198 children have enrolled in the beginners swimming classes. Registration is now closed but persons who meet the requirements of the advanced class are free to register for it, and this includes children over 9 who will have completed the beginners

"The general public has a lot to learn about deaf people," Dr. Elstad declared. "Few people understand the difficulties which the deaf face in regard to language and speech. Actually, lip reading is merely educated guesswork."

Dr. Elstad, who explained that the college he represents is the only college for the deaf in the world, concluded by urging a more sympathetic approach on the part of the public in dealing with the hard-of-hearing.

The speaker was introduced by Lloyd Graunke of the I.S.D. staff and Attorney Carl Robinson responded to the address. A large group of visiting Kiwanians and other guests was in attendance at the meeting.

KRESGE EMPLOYEES FETED

Employees of the S. S. Kresge Co., were guests of the store at a picnic held Wednesday evening in Nichols park. Various games, including bingo, were enjoyed by the workers and their friends.

Lebanon Seeks to Restore Cedars

Beirut—(P)—Lebanon is making a determined effort to preserve its few remaining cedar trees—famous through history as a building material. Once the Mountain ranges of Lebanon were covered with the great, spreading trees. Now these slopes, gradually denuded down the centuries, are nearly bare, only a few groves remain.

The cedar is to Lebanon what the American eagle is to the United States. As the emblem of the country, it appears on coins, stamps, military decorations and official papers. To protect the few trees remaining, Lebanon has forbidden further cutting without special government permission. And when one tree is cut down the person who does it must plant 50 new trees. A 20 year reforestation program, to start next fall, includes plans to set out thousands of young cedars on the cool slopes where they grow best.

Lebanon cedar—a hard and lasting wood—was used for thousands of years by civilizations now long perished. The Phoenicians, early mariners and traders, built their galleys at nearby Sidon and Tyre of cedar wood obtained from the Lebanese mountain slopes. The Egyptians, lacking wood in their own country, came to Lebanon for it.

King Solomon used Lebanese cedar in the construction of his great temple at Jerusalem 3,000 years ago. The Romans used it later for some of their buildings, including the giant pagan temples at Baalbeck—the city of the sun.

Moslem caliphs drew on the cedar forests for decorative woodwork in their palaces. And like the Phoenicians, and intervening sea-faring nations, they used it to build ships. Crusaders used the cedar in their castles. So it has gone down the years. Some of the trees were cut as recently as World War II.

There is a small grove of the trees in the range back of Tripoli—some of the gnarled giants there are reputed to be 3,000 to 5,000 years old. There are several other groups of the trees in other sections of the country. One of the principal reasons the cedar has failed in the past to propagate itself is the thousands of goats that forage in the mountain area. They have destroyed the young cedar shoots in their first years.

The new reforestation program calls for protection of areas where cedars are planted until—in five or six years—they are big enough to withstand the goats.

FRIENDLY KIBITZER

Missoula, Mont. — (P) — A Polson woman visiting here recently returned to her car to find a slip of paper under the windshield and at once feared a traffic summons. Instead, it was a note from some thoughtful and anonymous passerby who had written: "Your left rear tire is almost flat."

Poles, Czechs Have Same Divorce Law

Warsaw—(AP)—Poland and Czechoslovakia, long working together on just about everything under the sun, now have agreed to see eye-to-eye on the question of divorce. Divorce laws will be exactly the same for both countries.

The new law is modeled on the "Soviet Socialist civil law and judicial practices of Poland and Czechoslovakia."

The Polish-Czechoslovak legal commission said "basic principle of the law is that marriage is not merely a contract but is a basic social institution. It follows from this that marriage cannot be dissolved exclusively on the basis of desire by both parties. Divorce is only admissible when a court has established the permanent disintegration of married life and when the welfare of children under the age of 18 constitutes no obstacle," the commission said.

The law provides for joint ownership of a married couple's property. It also permits a wife to retain her maiden name and even allow a husband to assume his wife's name. The choice as to a surname for

children is left to the parents. Other highlights of the law: Civil marriages must precede any religious ceremony. All differences are eliminated between children born illegitimately and born of wedlock.

Since the present government came to power in Poland, divorce has been legal throughout the nation for the first time in 1,000 years.

Griggsville Fair Headlines Horse Show 'Best Ever'

Griggsville—The Griggsville Fair, which will be held from July 4th to July 10th, promises to be one of the largest and best shows held in this section of Illinois this season.

The show is held in front of the

grandstand, starting at 7:30 each evening, Monday through Thursday. A total of \$4,000 is being awarded in premiums, a larger offering than was made last year.

Entries in the last year's fair filled all the classes and some of the best horses in the Midwest were entered in the 1948 show. Prizes will total approximately \$1000 each evening.

Improvements have been made on last year's show ring in the front of the stand. The ring is regulation in size and is excellently lighted and horsemen entering the show will find comfortable accommodations and excellent cooperation among fair officials and department heads.

TO AVOID FAILURE ALWAYS USE FLAKO PIE CRUST MIX

Something Really New in Sterling Silver

In these postwar years a new style has emerged. It is notable for its lack of concern with periods or dates. Though its roots are modern, it concentrates on good taste and grace. Here is a pattern that's remarkable for its extra heavy weight and its superb craftsmanship. See it now at our Silver Department.

African Man Finds Morgan County Hot

One man at the National Convention of the American Instructors of the Deaf really has a legitimate gripe about the weather. He comes from a land where it is now winter. Ralph R. Hahn, delegate from South Africa, has been a prime mover in South Africa to establish aid for the deaf handicapped. "I don't think you understand our problem," he said. "After all, South Africa covers an area larger than the United States yet it has a population less than New York City. Any effort of ours to establish schools like yours is an incredible difficult task."

Mr. Hahn became interested in deaf training seventeen years ago. His interest grew from a World War I disability from which he spent 83 years in a world of silence in the hospital. A series of throat operations partially restored his hearing and since that time he has dedicated his life to those less fortunate than himself.

Three Schools

"We have 3 schools for the deaf in S. Africa," Mr. Hahn stated. "One of these is in Johannesburg, my home town, and the other two are down at the Cape. We also have a number of classrooms set aside in normal schools for those who are hard of hearing."

RALPH R. HAHN

Mr. Hahn said that the obstacle of space is being overcome by "clubs" which exist throughout South Africa. In these clubs, deaf persons meet socially and educationally to exchange problems and ideas. A closely knit association is developing through these organizations.

Six Month Trip

Half way around the world now, Hahn intends to travel for six more months before going home. He will go to the west coast after this convention, then will fly to Europe. After an extensive visit inspecting facilities set up by the deaf he will go to the near east then will fly to

South Africa and when he returns he will report to the government and to the individual institutions interested in his trip.

Greenfield Boy Chosen As Star State Farmer

Champaign, Ill., June 23—(P)—The Illinois convention of the Future Farmers of America has named 20 Illinois youths "Star State Farmers."

They were cited by the farm group yesterday. Some of them also shared in awards for public speaking and outstanding achievement in special projects.

Picked as "Star State Farmers" are Robert D. Kampen, Forreston; David L. Lampert, Belvidere; Peter A. Peterson, St. Charles; James Mil-

ler, Erie; Eugene Wirth, Manlius; Wallace E. Reynolds, Lonestar; Donald H. Swedlund, Galesburg, who also won the annual public speaking competition; Bruce B. White, Fairview; Franklin O. Imik, Stan-ford; Albert W. Tavener, Fairbury; Charles E. Lewis, Mt. Sterling, also winner of an award for special achievement in dairy farming.

Darrell A. Miller, New Holland; Merle S. Miller, Clinton, who was third in public speaking; Thomas A. Maudlin, Georgetown; David I. Cole, Greenfield; James A. Sharp, Bethany; James M. Young, Newman; Robert E. Sussenbach, Greenville; Billy Lee Groff, Mt. Carmel, and Owen Lewis.

Albert Kurz of Lee Center was second place winner in public speaking.

Russian Refugees From China Face Trouble

Manila—(AP)—Three Latin-American countries are opening the way for a limited number of Russian refugees from Red China now staying at the international refugee camp at Guian, Samar Island. Two other

new world countries are considering like action. Paraguay, Uruguay and the Dominican Republic are accepting resettlement applications, while Chile and Argentina are "mulling over" the International Refugee Organization's (IRO) plea to take white persons displaced by the upheaval in China.

Eric Bogen, United Nations resettlement officer, says there is "nothing definite for 1500 refugees seeking entry into Argentina," but he added there is some chance for news favorable to the applicants.

According to sources close to the situation, access to Argentina has been curtailed through a complicated series of events, as follows:

When Senora Eva Peron, wife of the Argentine president, visited Rome last year, Pope Pius made a special appeal for Argentina to take some of the DPs from China. The Peron government approved and 500 visas were to have been issued. The IRO paid for 250 of these visas, whose holders went to Argentina. Then word came through from Buenos Aires that no more would be accepted.

There was no official explanation but it was reported here unofficially

that the Soviet government had prevailed on Peron to stop the influx of White Russians after threatening to withdraw Russia's commercial mission from Argentina. These sources say that the IRO again has asked the pope to intercede on behalf of the DPs.

There are around 5,500 of them at Guian now. Of these, 3,000 want to go to the United States and applied for visas at American consulates in China before they were evacuated.

One of the greatest complications thus far has been the unwillingness of United Nations countries to accept older people from the camp. Persons over 50, who comprise at least 20 percent of the group, find no one wants them.

Some 286 persons have applied for entry into Ecuador. Their admission pivots on deposit of \$500 in the Ecuadorian bank. Paraguay will take 500 persons who are genuine agriculturists or skilled workmen.

Nearly a thousand Russian refugees from Sinkiang province in China's far west are considered the most likely choice for Paraguay. They say they took two years to walk all the way to the China coast—a distance equivalent to the breadth of the United States from San Francisco to New York.

WHITE HALL

White Hall—Mr. and Mrs. Robert Whiteley of Carlinville are visiting their nephew, Ennis Tannison, and family and Miss Emma Thuet.

Mr. and Mrs. Clement Knight observed their 21st wedding anniversary with a picnic at the Jacksonville park on Sunday. Twenty-two members of their families were present. It was also the birthday anniversary of Mrs. Nellie Knight, mother of Mr. Knight.

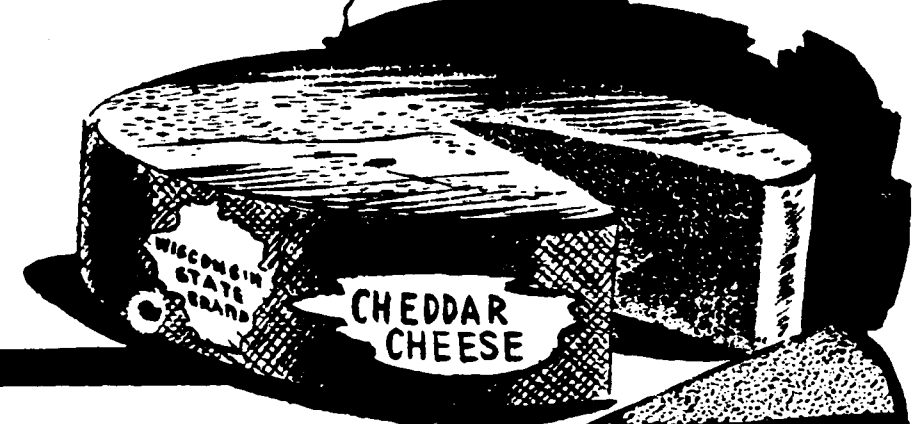

A picnic dinner was held at the Lions Park Sunday honoring the Jos Taylors, who are visiting relatives in this vicinity from Bristow, Oklahoma. Guests at the dinner were from St. Louis, Alton, E. Alton, Beardstown and White Hall. Mrs. Ruth Mosley was in White Hall visiting friends and attending to business matters, accompanied by her son, Jerry, and daughter, Mary Ann. Jerry remained for a few days visit with David Seymour.

Mrs. Betty Morrow has taken a position in the White Hall National Bank.

CLIPPED ANGEL By Clive Grieron Cornish

Copyright, 1949, NEA SERVICE, INC.

THE STORY: Mike McTag, a mining engineer, who is telling this story, had been planning a vacation till he met Cory Parnell, beautiful and high-spirited daughter of Parboid Parnell, an old friend of Mike's. Cory had inherited the Dark Angel, a good producing gold mine, after Parnell's death. Now the production has been dropping off from \$15 a ton to \$5 a ton. Mike, convinced that no man can run a mine, is patronizing and there is a display of the Parnell temper which ends when Mike slaps Cory, then takes her out to dinner. The next day Mike visits Doug Weyman, a lawyer friend who had brought about the meeting between Mike and Cory, and Mike tells Doug he's going to go to Cory's mine and look around for the trouble.

IV I KE Cory, the Dark Angel mine had changed considerably since I had last seen it 15 years ago. At that time Parboid Parnell was skidding hand-picked high-grade ore down the mountain in rawhide sacks, digging out perhaps 500 pounds a day. Now a modern 200-ton ball-mill filled the air with noise, and a dismal gray tailings dump fanned out halfway across the valley, making the place hideous. The mine itself was in Umbrella Mountain, so called because innumerable ravines cut the sides, and the ridges between stuck out like ribs. Dark Angel was between the biggest two ribs. The vein system, as I remembered it, was a honey. It struck right through the mountain, almost vertically, so that all a miner had to do was cut ore chutes between the different working levels and gravity did the dirty work. The stuff tumbled down to the main haulage level, about 100 feet above the valley floor, and was carted out and dumped right into the mill bunkers. You couldn't have asked for a nicer set-up in a small mine. Cory came around to the company boarding house after breakfast next morning and took me over to the office. The mill superintendent was there, a kind-faced old boy who could have played loyal-family-retainer parts without make-up. The four of us sat down around the office table. "Mike is here," Cory announced, "to see if he can find out why our mill-heads are running only \$5 a ton instead of the \$15 they used to run."

It was a shock to the boys. Uncle Jake began, "But, Cory, I thought we'd decided..." and trailed off into disconnected silence. Trask's jaw dropped for a moment, then he snapped it shut angrily. Cory made haste to explain. "My theory is we've been looking so long and so hard we've discouraged, whereas an outsider, with a completely fresh slant, might find the answer right under our noses." "Well," I said, "suppose we get down to prosaic details like sampling, assaying, the mill-flow sheet and things like that." I outlined what I had in mind, then I asked about assays and who'd been doing them. "We have our own assayer," Uncle Jake said. "He's a good man; I picked him out myself." I said I doubted if he could handle all the work I'd have for him during the next week. "I wouldn't worry about that," Trask put in. "Riggs is fast and he's accurate. Besides, if we have to send samples to Seattle it means delay and extra expense." I looked at Cory and she nodded. "All right," I said. "We'll use your lad. Now, if you'll let me have a look at your flow-sheet..." (To Be Continued)

are thriving on a diet of kangaroo meat and pumpkins supplied by professional hunters who keep out-back butchers stocked with pork. The hunters have even released stud boars to improve the strain of the wild pigs, descendants of domestic pigs gone wild. "This is Uncle Jake," Cory said. "Jake Whinnaker, that is—he's not really my uncle. Uncle Jake has been with the Dark Angel from the very beginning." Uncle Jake was pleased to meet me, but it took a little while for him to get it out because of his asthma. We shook hands and I turned to the other party present, a young fellow. "This is Archie Trask," Cory said. "Archie, Mike McTag. Archie is in charge of everything underground. He's been with us for 10 years." Trask was an open-faced, good-looking lad in his early 30's. I didn't see why Cory dragged in the length-of-service angle, and I wondered what had kept him out of the late, great unpleasantness, but we shook hands anyway, and

**Worms Make
Business For
Housewife**

Salt Lake City—(P)—A housewife here, Mrs. Polly Lund, is raising thousands of red angle worms for sale to fishermen. She calls the wrigglers "the bait fish love" and claims they are healthier and stay alive longer under water than do night crawlers. She spends two or three hours a day separating, feeding and watering them. They multiply rapidly.

Mix four equal parts of peat moss, topsoil, manure and vegetable matter like leaves. Put the mixture into small crates and keep them in a warmish, dark place. Mrs. Lund says that is good housing for her worms. She feeds them such things as lettuce and cabbage clippings, potato peelings and other fresh kitchen castoffs.

She used to raise minks but the business went bad for her last season. Then she turned her hobby—raising red angle worms—into a business. As the fishing season opened in the Rocky Mountain country, he had 100,000 of the worms ready for sale to anglers as bait.
